

## Epoxy resin

### BEP 470/01 X75

**Product Description:** BEP 470/01 is low molecular weight solution epoxy resin in mixed xylene .

**Uses:** Epoxy 470/01 soluble in xylene has many applications in coating industries.  
470/01 epoxy resin applications include anti-corrosion coatings, resistant coatings (chemicals, water and solvents), marine protective coating, can coating, industrial and engineering coatings.

#### Tech. Properties:

##### Physical data in liquid state at 25°C

Properties	Unit	Value	Test method
Appearance	----	Clear Liquid	----
Color	APHA	Max50	ASTM 1209
Viscosity (at 25°C)	mpas	6000-12000	DIN 53015
Solid content	% weight	75±1	ASTM D-1259
Epoxide Equivalent	gr/eq	580-620	ASTM D-1652

**Pack Weight:** 220 kg(NET) in steel drum
